MOTOR OIL

Thursday, July 24, 1930

The new Texaco Motor Oil is here! It's longer-lasting! It's crack-proof! Here in this new oil are all the qualities which were never before obtainable in any one oil. There were oils that gave remarkable mileage. There were oils that flowed freely at zero. There were oils that were dewaxed and free from impurities that formed hard carbon. But not until now were all these desirable qualities to be found in any one single oil.

Because the new Texaco Motor Oil is crack-proof it does not break down under the high pressures and temperatures of the modern engine so as to form hard carbon. And because it is longer-lasting you get the benefit of increased mileage in every quart. The new Texaco is manufactured in five grades: C, D, E, F, and G, corresponding in body to S. A. E. (Society of Automotive Engineers) viscosity ratings. The price is 30c a quart (35c for Grade G). The right grade for your car is ready for you now. Drive in today.
